# STATISTICAL DIVISIONS OF SOUTH AUSTRALIA

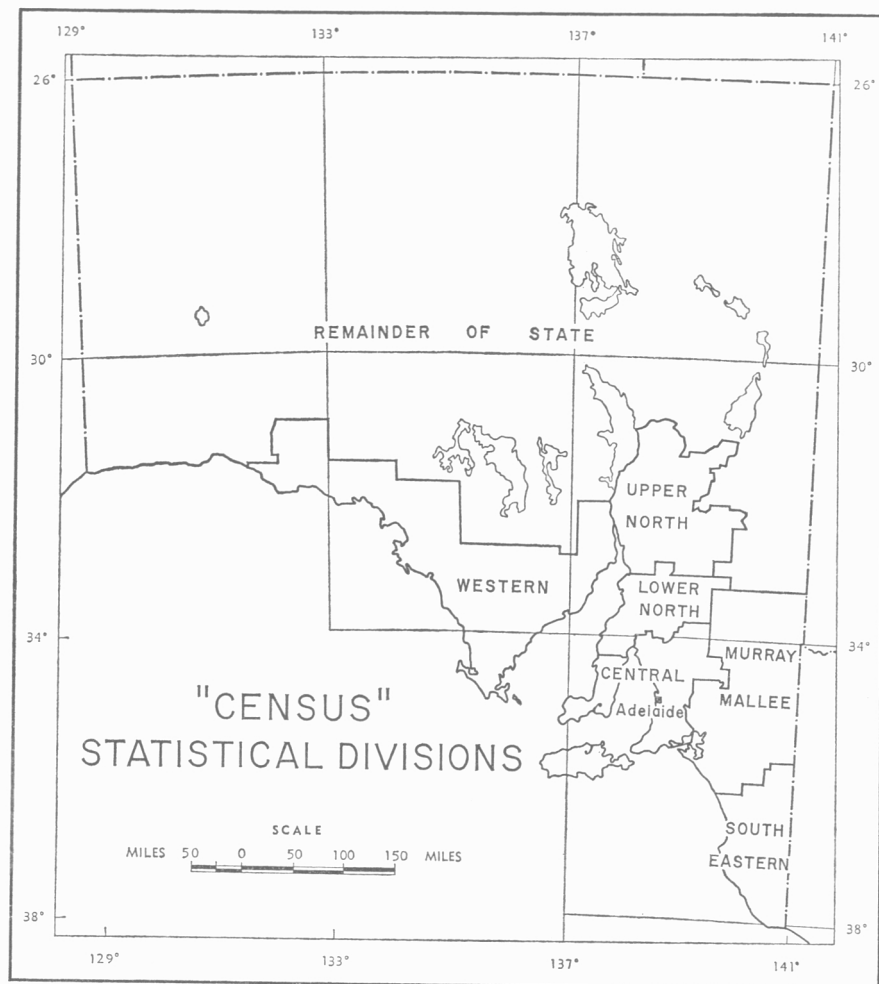

## NOTE

Statistical Divisions shown on this map are used for Primary Production Statistics.

These boundaries follow boundaries of COUNTIES, which are unchanging proclaimed areas. These Statistical Divisions, therefore, do not change.

# STATISTICAL DIVISIONS OF SOUTH AUSTRALIA

## NOTE

Statistical Divisions shown on this map are used for all other Statistics, especially population.

These boundaries generally follow boundaries of LOCAL GOVERNMENT AREAS, which are subject to change. These Statistical Divisions, therefore, may be varied slightly from time to time.

Note: All statistics in this table relating to dwellings, employment, area of crops, and sheep, are ESTIMATES only. In particular, rural statistics should be regarded as approximations as the information has been collected on a different basis, and subsequently converted to a Local Government Area basis. Changes in population of individual Local Government Areas and Statistical Divisions are based mainly on recorded changes in the number of dwellings. Allowance is made for changes in occupancy of larger Government hospitals, hotels, and camps—no allowance is made for temporary movements such as holiday trips etc. See also note to Table 8. Migratory population is included in Remainder of State.

(a) Average employment during the year, including working proprietors, classified according to location of factory.

(b) Includes owners, occupiers, etc., but excludes temporary workers.

(c) Total expenditure (including debt charges) on roads in each area by all authorities, other than expenditure on maintenance by Highways Department—amounting to £1,424,645 (Metropolitan £167,967, other incorporated areas £1,106,383, unincorporated areas £150,295).

(d) Expenditure by Local Authorities only—includes contributions to hospitals, upkeep of cemeteries, garbage collection and disposal, etc.

(e) Rated on Unimproved Values.

(f) Combined figure for Upper North unincorporated and Remainder of State shown under Upper North unincorporated.

(g) Combined figures for D.C.'s Peake and Coonalpyn Downs and Murray Mallee unincorporated shown under D.C. of Peake.

(h) Details are for "Primary" Statistical Divisions (see map, page 4). Because of this, figures for Local Government Areas do not add to Statistical Division totals and no information can be given for unincorporated areas.

(i) Included in Remainder of State.

(j) Kapunda (D.C.) and Kapunda (M) were united on 9th July 1962 and designated Kapunda (D.C.).

Note: The statistics in this table refer only to accidents to persons covered by the South Australian Workmen's Compensation Act; they do not show the number of accidents which occurred during the period but are based on reports of claims closed during the period and of unclosed claims of three years duration at the end of the period. For the purpose of the table an industrial accident is "a compensated work injury causing death, or absence of the injured person from work for one week (seven calendar days or five working days) or more, excluding journey cases, cases occurring during a recess period, and disease cases".

(a) Compensation for wages lost, hospital and medical expenses, and lump sum settlements.

(b) Less than £50.

## No. 61—Articles Produced in Factories

The following table gives details of production of a number of articles in South Australian factories.

Because of the necessity of concealing details for individual producers (the Census and Statistics Act requires all such information to be treated as strictly confidential) details concerning a number of major items—e.g. motor vehicles—have been withheld from publication.

(a) Covers all contractors and sub-contractors and employees of contractors, subcontractors, and Government instrumentalities, who on the last working day in the month were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.

## Trade

All statistics shown in Tables 80 to 88 relate to articles shipped direct between ports in South Australia and overseas countries. Oversea exports and imports via other states are NOT included.

Value of outside packages (containers etc.) is included with individual commodities for exports, and with the "All other" group for imports.

Details of interstate movements of goods (particularly by road) are extremely difficult to obtain, but a few major items which are available are shown in Table 79 below.

## No. 104—Consumer Price Index: Adelaide

(Base of Each Group : 1952-53 = 100)

For current statistical purposes the Consumer Price Index replaces both the "C" Series Retail Price Index and the Interim Retail Price Index. The list of items is more extensive than formerly and hence the new Index measures more accurately quarterly variations in retail prices of goods and services representing a high proportion of the expenditure of wage earner households.
